

3 POINT ALLIANCE

**FOR IMMEDIATE RELEASE**

## **Maintenance on Digital Check's Quantum DS Series now available from Qwinstar**

**Clifton, NJ (Businesswire), April 10, 2018** – Qwinstar Corporation, the check processing equipment and maintenance division of 3 Point Alliance, announced an Authorized Service Provider agreement with Digital Check Corp.(DCC), a leading provider of image capture and payments processing technology, for Qwinstar to provide maintenance services on DCC's Quantum DS series of desktop check scanners.

"This agreement allows 3 Point Alliance to offer our clients the ability to have one service provider for various document transports," explained Norm Grunberg, 3 Point Alliance's co-president.

"We are very pleased to add Digital Check to the growing group of equipment manufacturers supported by Qwinstar: NCR, Burroughs, IBM and IBML," said Rich Daidone, co-president of 3 Point Alliance.

Qwinstar cross trains technicians on multiple document scanning platforms to provide flexibility to those customers that have equipment from different manufacturers. This agreement is the result of a new partnership between the two companies.

### **About 3 Point Alliance**

3 Point Alliance provides customized remittance solutions to the payments industry. The five 3 Point companies - 3 Point Payment Processing, Qwinstar Corporation, 3 Point Alliance Canada, Equipment Leasing Organization and Business Continuity Services – give 3 Point a wide scope of services which facilitates the creation of integrated service offerings scaled to client's unique remittance processing, maintenance, equipment financing, and business continuity needs.
