

OrboGraph Launches OrboAccess as Healthcare Payment Platform, Expands Functionality with Interactive EOB, Executive Dashboard and Denial Intelligence

New branding, modules and features offer enhanced access to healthcare payment and remittance data.

Billerica, MA – OrboGraph a premier developer and supplier of intelligent electronic/paper automation solutions in healthcare revenue cycle management (RCM), as well as recognition solutions, image validation and check fraud detection for the U.S. check processing market, has rebranded and expanded capabilities for its Healthcare Payments line of business with the announcement of OrboAccessSM. OrboAccess is comprised of modules, as set forth below, that streamline time-consuming and costly payment-related tasks:

- Access EOB Conversion
- Access Correspondence Letters
- Access Patient Payments
- Access Denial Intelligence
- Access Payment Reconciliation

Underlying OrboGraph “Intelligent Payment Automation” technology enables OrboAccess to deliver a solution minimizing manual EOB, correspondence letter, patient payment and reconciliation operations, electrify paper payments and remittances and unlock key data trends. The resulting achievements include: 100% payment and remittance electrification, faster cash posting with less errors, improved research efficiency, identification of actionable trends in denied claims and improved decision making by the provider or OrboGraph business partner.

The Interactive EOB, Executive Dashboard and Denial Intelligence were initially announced to a large crowd of business partners and end users at the recent OrboGraph Client Conference in Atlanta, GA, with tremendous reviews.

“We are excited to offer a new brand experience with expanded capabilities to the hundreds of healthcare providers, service bureaus, revenue cycle companies, billers, clearinghouses and financial institutions that rely on OrboGraph to streamline healthcare payment processing,” stated OrboGraph Co-President, Barry Cohen. OrboAccess is hosted on the Healthcare Payments Automation Center (HPAC), OrboGraph’s scalable and resilient cloud-based data center resident on Amazon Web

Services. HPAC's unique security implementation adheres to and exceeds strict regulatory compliance requirements of Protected Health Information (PHI), the Health Insurance Portability and Accountability Act (HIPAA) and HITECH, delivering resellers and users a competitive differentiator.

"For our Business Partners, we have rebranded and updated support materials for OrboAccess," says OrboGraph VP Marketing, Joe Gregory. "We are releasing testimonials, webinars and video to reinforce the value proposition."

OrboAccess is now available. For more information visit

About OrboGraph

OrboGraph (www.orbograph.com), a subsidiary of Orbotech, is a premier developer and supplier of intelligent electronic/paper automation solutions in healthcare revenue cycle management (RCM), as well as recognition solutions, payment negotiability and check fraud detection for the U.S. check processing market. The company mantra, "intelligent payment automation," describes how intelligent technologies are applied so payment posting becomes an automated process and information is accessed and analyzed via a variety of business intelligence, analytics and user interface capabilities. Nearly 2,000 financial institutions, service bureaus, clearinghouses and billers rely on OrboGraph technology to process billions of checks, EOBs, correspondence letters and claims annually.
